

M-Ax Mount™

For those that require a powerful helmet mounted flashlight during search operations, you will appreciate the maximum range of motion of the Multi-Axis Mount. Aim the light where you need it...done. Dubbed the M-Ax Mount™, this compact assembly mounts to the Ops-Core, Team Wendy and Galvion Helmets and takes the flashlight up and above the helmet rail, nesting it in a low profile position.

- Lightweight, low profile design
- Small assembly with multi-axis range of motion
- **Patent #: US 8727556**

- Compatible with all SureFire® 3V components
- Available with or without SureFire® tailcap and lighting components

Designed to fit the Ops-Core, Team Wendy and Galvion Helmets.
