PRODUCT NAME:

PECI Cummerbund Adapter
PART NUMBER:

PFMA-PCBAXX

MOUNTING THE PECI TO THE CUMMERBUND ADAPTER

1 Place the PECI MOLLE/PALS adapter next to the PECI. Notice the rectangular window in the middle of the adapter.

2 Pass the PECI belt loop through the adapter window.

**3** Feed the adapter's locking strap through the PECI belt loop.

4 Ensure that the locking strap passes underneath the adapter's frame as shown above.

5 Feed the locking strap through the adapter's vertical slot as shown above.

6 Use a plastic card to break the Velcro hook and loop connection between the locking strap and the PECI belt loop. Feed the locking strap back through the belt loop.

7 Remove the plastic card and press the locking strap in place to secure the connection between the Velcro located on the locking strap and the PECI belt loop.

PRODUCT NAME:

PECI Cummerbund Adapter

PART NUMBER:

PFMA-PCBAXX

MOUNTING THE ADAPTER TO THE AUTO-FIT CUMMERBUND™

1 Feed the vertical straps through the horizontal slots located at the top of the adapter.

2 Begin weaving the MOLLE/PALS straps between the MOLLE/PALS field and the adapter. The adapter is designed to mount to two rows of MOLLE/PALS. After passing through the final row of MOLLE/PALS, feed the straps through the horizontal slots located at the bottom of the adapter.

3 Tuck the stiffened tabs back into the MOLLE/PALS row to secure the adapter and PECI in place.
