

Holster Extender™

WITH GRT™ REINFORCED BELT ADAPTER

- The Holster Extender™ allows the holster to be easily attached or removed from different gear setups utilizing any GRT™ platform
- Lightweight design and smooth operation
- With a push of a button the Holster Extender™ gives the shooter three set drop positions to set their holster. (0", 1 ½", and 3"). This distance can be critical for clearing the holster when wearing bulkier gear
- Compatible with most holster brands
- Includes: GRT™ Reinforced Belt adapter, spacers, and screw kit to set the standoff you need to optimize your preferred holster carry and draw

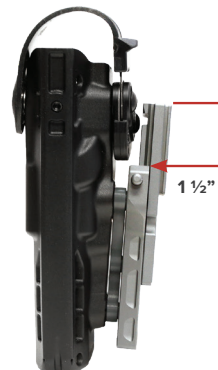

- Patent #: US 10238201

Small screws increase friction and reduce rattle

0" drop

1 ½" drop

3" drop

Three set drop positions
